Cost: \$170 + GST = \$178.50

Time: Doors Open: 8:00 am
Workshop: 8:30 am - 3:30 pm each day

Lunch, refreshments, door prizes, all included!

Are you looking for a thorough presentation of a huge variety of phoneme stimulation methods? Are you wanting to be creative while implementing evidence based practice?

This workshop pulls together all of the methods of articulation therapy that have been advocated since the inception of speech-language therapy. It is based on the historical writings of the masters of articulation therapy throughout the past 100 years.

Pam is a gifted speaker who will make this topic come alive with her imitations of typical speech errors and imitations of famous personalities with atypical speech. The day will be filled with live demonstrations of strategies including the use of models, cues, marked targets, associative movements, inhibition of extra movement, assisting, resisting and separating movement, developing sensory awareness, discrimination of oral movements, stimulation of reflex movements, normalizing oral-tactile sensitivity, influencing muscle tone, stabilizing movements, comparing and contrasting, describing, exaggerating and directing movement, encouraging rhythmic movements and varying the speed of movements.

She will also demonstrate the use of many low cost and readily available speech tools and strategies to enhance correct speech production.

About the Presenter

Pamela Marshalla, MA, CCC-SLP is a very engaging and entertaining international speaker. She has spoken at hundreds of workshops and has authored several books and articles. She has been a speech language pathologist for over 30 years and has worked with all ages and ability levels in schools, hospitals, private practice and university facilities. Her main teaching areas include articulation, phonology, oral motor therapy and childhood motor speech disorders. She has often been referred to as the “clinician’s clinician”.
